In early 2015, Mayor Murray signed an ordinance passed by Seattle City Council to approve a Priority Hire program for City public works construction projects of $5 million or more. Using City-funded construction projects, the Priority Hire program prioritizes the hiring of residents that live in Seattle and King County economically distressed communities, women and people of color.

Introduction

Are you looking for a career instead of a minimum wage job? Are you considering a career in construction? Then you have come to the right place. Keep reading.

We need contractors, foremen and trained professionals to build structures like our homes, offices, high-rises, roads and bridges. These projects are essential to our everyday life and require hundreds of workers trained in more than 20 different building trades. Building trades (also called trades, crafts or skills) include laborers, ironworkers, cement masons, carpenters, heavy equipment operators, pipe fitters, sheet metal workers, painters and many more. This book is designed to help you get started down the pathway to becoming one of those skilled professionals with a high-paying career in the building trades.

You do not need construction skills to get started; the professionals will teach you what you need to know. But there are some essential things you will need right from the start to succeed:

**Work Ethic:** Be open to learn, love hard work, and strive to be the best.

**Reliable:** Show up and work hard every single day, no matter what.

**Early:** Always be on site a half hour early to prepare for work.

**Learn:** Listen, pay attention and follow directions.

**Hands-On:** Learn by doing, solving problems, and overcoming challenges.

**Physical:** Ready for hard work, heights and cold, wet weather.

**Drug Free:** Construction sites can be dangerous. Everyone must be alert.

**Safety:** Pay attention. Speak up. Wear safety gear at all times.

---

**Pre-Apprenticeship**

Pre-apprenticeship (preparatory) training programs are supportive, hands-on and help prepare people for entry and success in the building trades. These preparatory programs provide construction training, education, and assist with driver’s licensing, transportation, childcare, budgeting, etc. The best part is if you show up and bring your best every day, they will help you get into a paid apprenticeship program.

If you already have your high school diploma/GED, driver’s license and a proven work ethic, you can apply directly to an apprenticeship in the building trade of your choice.

**Apprenticeship**

Once you are in an apprenticeship training program, you are officially an apprentice, working on a construction site, learning your trade and getting paid. You **EARN** while you **LEARN**.

It takes about four years for apprentices to become experienced journey-level workers. They reach journey level by learning from experienced workers on the job site and taking classes. Apprentices get regular pay raises at each level along the way, plus benefits and a pension.

You do not need a clean record, a college degree or past experience. You just need to apply and try out for one of the pre-apprenticeship or apprenticeship training programs outlined in this book. These training programs need Seattle and King County residents, veterans, women and people of color.

A career in the building trades is important, fast-paced work that is physically and mentally challenging every day. At the end of each day, you will be very proud of what you have learned and what you have built. And, most importantly, you will be able to support yourself and your family for a lifetime.

**Experienced Workers**

Candidates with five or more years of experience in a particular trade should contact the union hall directly: [www.seattle.gov/Documents/Departments/FAS/PurchasingAnd-Contracting/Labor/SBCTC-Affiliates.pdf](http://www.seattle.gov/Documents/Departments/FAS/PurchasingAnd-Contracting/Labor/SBCTC-Affiliates.pdf).

Support Services
For Pre-Apprentices and Apprentices

Apprenticeship Opportunities Project (AOP)

AOP helps people prepare for, apply to and complete construction apprenticeship. AOP services include resume building, interview skills, application completion, counseling, mentorship and support services. Support services are for items such as gas, tuition, work clothes, tools and initiation fees. Pre-apprentices and apprentices are eligible if they are:

- A Washington state resident
- Low-income
- Drug free
- Able to obtain a Washington state driver’s license

To Apply
Visit www.anewaop.org for more information
Call 206-381-1384 to speak with a Client Services Manager

Contact
Vernel Nicholas
Program Manager
206-381-1384
info@anewaop.org
550 SW 7th St., B305, Renton, WA 98057

Alternative Solutions

The Department of Social and Health Services (DSHS) is redesigning service to customers through Alternative Solutions. There are new grants, programs and services available to pre-apprentices and apprentices to ensure they have a successful and sustainable construction career. Alternative Solutions assists with:

- Setting reasonable child support payments
- Reinstating driver’s licenses
- Connecting people to services for legal issues, parenting plans, housing, mental health, immigration, child care and more

The Alternative Solutions program includes a comprehensive, user-friendly database called the DSHS Community Resource Directory with over 3,300 statewide community-based organizations providing barrier removal services.

DSHS created this database to ensure that people of color, women, people living in economically distressed communities and people transitioning away from the justice system or military service have the support they need to succeed. See the Alternative Solutions Brochure for more information.

Washington State Department of Labor and Industries (LNI)

LNI and the Washington State Apprenticeship and Training Council oversee pre-apprenticeship and apprenticeship programs that promote a highly skilled and diverse construction workforce: www.lni.wa.gov/TradesLicensing/Apprenticeship.

Ready for Apprenticeship?
www.lni.wa.gov/TradesLicensing/Apprenticeship/About/Ready/

Washington State Department of Veterans Affairs (WDVA)

The WDVA works with all veterans and transitioning service members to support them in finding living-wage careers, including GI Bill-approved training and apprenticeship programs. Use the resource guide to find information on state-registered apprenticeship programs you are interested in pursuing and determine your approximate wage to include your GI benefits:

www.wacareerpaths.com/apprenticeships/
Pre-Apprenticeship

Pre-apprenticeship (preparatory) training programs are supportive, hands-on and help prepare people for entry and success in the building trades. These preparatory programs provide construction training, education, and assist with driver’s licensing, transportation, childcare, budgeting, etc. The best part is if you show up and bring your best every day, they will help you get into a paid apprenticeship program.

If you already have your high school diploma/GED, driver’s license and a proven work ethic, you can go directly to the apprenticeship section and apply to the building trade of your choice.
ANEW
Apprenticeship & Non-Traditional Employment for Women

Trades Rotation Program is 11 weeks of training, 3 days a week, and includes field trips to apprenticeship programs and construction sites.

Boot Camp is 4 weeks of training, 5 days a week, with an introduction to apprenticeship programs.

Application Process
Attend orientation Tuesdays at 2 PM and Thursdays at 10 AM at the Kent Facility.
Bring:
- Driver’s license
- Social security card
Complete application: www.anewaop.org/programs/trp-landing

Cost
Training is free.
College credits are available through South Seattle Community College. If eligible, tuition assistance available through BFET, TANIF, RISE and WIOA.

Minimum Qualifications:
- Must be at least 18 years old
- Must be able to pass a drug test by end of program

Preferred Qualifications:
- High school diploma or GED
- Driver’s license

Need To Succeed
Be physically capable to do the work
Show up early every day
Work well with others
Be ready to learn
Enjoy hands-on work
Have reliable transportation

Once you are in an apprenticeship training program, you are officially an apprentice, working on a construction site, learning your trade and getting paid. You EARN while you LEARN.

It takes about four years for apprentices to become experienced journey-level workers. They reach journey level by learning from experienced workers on the job site and taking classes. Apprentices get regular pay raises at each level along the way, plus benefits and a pension.

You do not need a clean record, a college degree or past experience. You just need to apply and try out for one of the pre-apprenticeship or apprenticeship training programs outlined in this book. These training programs need Seattle and King County residents, veterans, women and people of color.
Boilermakers 104

Represented by the International Brotherhood of Boilermakers Local 104

Boilermakers are complete metal fabricators in shops and shipyards. They work with steel, aluminum and other metals to fabricate boilers off-site that get delivered to construction sites.

While they weld ships, bridges, garbage dumpsters, etc., their focus is mainly on the maritime industry.

Minimum Qualifications:

- 18+
- High school diploma or GED
- Driver’s license or other state- or federal-issued ID
- Clean drug Test

Application Process

Applications accepted Wednesdays from 9:30 – 11:00 AM
Complete an assessment
Once placed in the candidate eligibility pool, you may be called in for an interview
Candidates in the eligibility pool may seek their own employment as an apprentice

Need To Succeed

Be physically capable to do the work
Show up early every day
Work well with others
Be ready to learn
Enjoy hands-on work
Have reliable transportation

2017 Hourly Wages

Benefits, pension and journey-level wages vary by location and contract. Contact for wage and benefit information.

Boilermakers 502

Represented by the International Brotherhood of Boilermakers Local 502

Boilermakers are complete metal fabricators on construction sites. They work with steel, aluminum and other metals. Their work includes new construction, repair and maintenance of things like boilers, cranes, tanks, pipelines, cable-ways, pressure vessels and structural frames. They rig and lift loads with rope, steel cables and chains, operate power tools and may work in extreme temperatures.

Minimum Qualifications:

- 18+
- High school diploma or GED
- Driver's license
- Clean drug test

Application Process

Applications are handed out at the training office on the first Wednesday of every month from 1 - 5 PM

Need To Succeed

Be physically capable to do the work
Show up early every day

Bricklayers and Allied Craftworkers

Represented by the Bricklayers and Allied Craftworkers (BAC) Local 2 WA/ID/MT
Apprenticeship and Training - Western Washington Masonry Trades

Masonry trades include bricklayers, tile setters, pointer-cleaner-caulkers, marble setters, terrazzo workers and finishers. Professionals in each craft work inside and out at substantial heights and ground level. Most of their work involves finishes; some is structural, and all crafts require attention to detail and creative problem-solving skills. Their beautiful, finished surfaces last for years.

Minimum Qualifications:

- 18+
- High school diploma or GED
- Driver’s license
- Social security card or I-9 verification
- Clean drug test

Application Process

Application must be filled out and turned in on the same visit
Bring driver’s license, high school diploma or GED and social security card
Qualifying veterans may use their GI bill
Pass drug test
Complete pre-job training
Pass basic math test

Carpenters

Minimum Qualifications:

- 18+
- Driver’s license
- Clean drug test

Multiple training programs are offered within the carpenters training program. General carpenters lay out, measure, cut, erect and join materials. Interior systems professionals install acoustical ceilings, metal framing and wall partitions. Millwrights install and repair machinery like compressors, turbines and monorails. Piledrivers drive piling into the earth to ensure buildings are stable. Scaffold erectors build and maintain scaffolding. Shipwrights repair and renovate boats. Trade show workers and floor coverers are also carpentry crafts.

Application Process

Fill out application
Attend 8-hour trade orientation, including hands-on assessment and math exam
Attach valid and current:
  - Resumé
  - Training documents (pre-apprenticeships, classes, certifications)
  - Work experience documents (check stubs, W-2s)
  - Military documents (DD214, ID Card)

Electricians

Represented by the International Brotherhood of Electrical Workers (IBEW) Local 46

Inside wiremen install the power, lighting and controls in commercial and industrial buildings. Limited energy technicians install circuits and equipment for low voltage systems like phones, computer networks and security systems. Residential wiremen install electrical systems in houses.

Minimum Qualifications:

- 18+
- High school diploma or GED
- Driver’s license
- Social security card
- Birth certificate or proof of legal employment status
- Clean drug test

Application Process

Submit application on-line: www.psejatc.org

Submit valid and current documents:
- Resumé
- Training (pre-apprenticeship, classes, certifications)
- Work experience (check stubs, W-2s)
- Military (DD214, ID card)

Complete:
- Electrical Training Alliance (ETA) Aptitude Test
  - Math for Inside Wireman – C or better in algebra OR 75%+ on test
  - Math for Limited Energy Technician – C or better in algebra AND pass test
- In-person interview
- Background check
- Physical exam
- Agility test

Need To Succeed

- Be physically capable to do the work
- Show up early every day
- Work well with others
- Be ready to learn
- Enjoy hands-on work
- Have reliable transportation

27 • Union Apprenticeship
Operating Engineers

Represented by the International Union of Operating Engineers (IUOE) Locals 302 & 612

Operating engineers operate the bulldozers, motor graders, backhoes, paving machinery and cranes that help to form highways, site infrastructure and skylines. They work mines, dig wells, survey sites, pave and grind roads, drill and hoist steel and slabs. They also do the final grading as well as maintain/repair machinery. Operating engineers may travel up to 80 miles or more to job sites.

Minimum Qualifications:

- High school diploma or GED*
- Driver's license (DD-14 if necessary for veteran credit)
- Social security card or I-9 verification
- Clean drug test

Participants must also submit:
- Resumé
- Employer letters of recommendation (1-3)
- Pass physical exam
- Construction site surveyor/technical engineer applicants must score a minimum of 80% on math and reading test

*Diploma waiver granted for applicants who can provide documentation that they've worked at least two years in construction. Waiver also requires a minimum of 70% on math and reading tests.

Application Process

Applications due in November for selection and training the following spring
Applications are available at www.oetraining.com or from the training office
Qualified applicants will be notified of time and place to appear for interview
Top applicants may be required to complete operating engineers safety and orientation training
Pre-apprenticeship graduates and military veterans may be granted direct entry
Credit for previous work experience may be granted for individuals placed into apprenticeship based on prior work experience

Sheet Metal Workers

Represented by SMART, the International Association of Sheet Metal, Air, Rail and Transportation Workers, Local 66

Sheet metal is any metal that can be formed into flat pieces. These metals include cold rolled steel, mild steel, stainless steel, tin, nickel and copper. Sheet metal workers cut, roll, bend and shape these pieces into HVAC system ductwork, medical tables, building facades, etc.

After fabricating their products, sheet metal workers install what they created. Sheet metal work also includes service and maintenance of HVAC equipment and testing, adjusting and balancing of HVAC systems.

Minimum Qualifications:

- 18+
- High school diploma or GED
- Driver's license
- Social security card
- Proof of auto insurance
- Clean drug test

Application Process

Applications must be filled out at www.wwsmjatc.org

Within 30 days, submit:
- Driver's license
- Social security card
- High school transcript or GED scores
- Proof of auto insurance

Applicants will be scheduled for a math and reading exam

Qualified applicants will be scheduled for an interview and placed on ranked eligibility list

Apprentices are accepted as-needed based on:
- Interview score
- Geographic availability
- Timely response to contact from apprenticeship

Applicants accepted into the HVAC service technician or HVAC test, adjust & balance programs must have a current Washington state electrical training certificate or current Washington state electrical certification

Need To Succeed

- Be physically capable to do the work
- Show up on early day
