Why a Neighborhood Report Card?

When you are in good health, you can better take advantage of life's opportunities and be more resilient to challenges. We can say the same for our neighborhood. We believe that when our neighborhood is healthy, everyone who lives, works, studies, plays and prays in Rainier Beach can thrive. Rainier Beach Action Coalition (RBAC) collaborated with student researchers at the University of Washington to create the first Our Rainier Beach Neighborhood Report Card. Now, we can identify and track areas of pride and success, and areas needing improvement.

Grading Process

We adapted The Prevention Institute's THRIVE model (Toolkit for Health and Resilience in Vulnerable Environments), used data from sources such as the U.S. Census, Seattle School District, Seattle Police Department, and conducted street surveys. The grading criteria included comparisons to Seattle or a similar neighborhood, a 3-5 year trend over time, or progress towards a goal. For the full report, please visit www.rbcoalition.org.

What’s Next?

Look out for 2019 Our Rainier Beach Neighborhood Report Card. We invite you to provide feedback, celebrate our accomplishments, and join us in continuing our collective efforts towards excellence and vibrancy!

Grading Scale

A = 80-100% Excellent
