

## THE WHAT:

We understand the stress and frustration of living in an unsafe environment, and we all know that spending too much time in an unsafe environment leads to bigger problems down the road.

At RBAC, we provide neighborhood safety assessments, trainings and tools for organizations and neighbors in Rainier Beach so they can create safe, positive spaces that prevent problems.

When you partner with us, you'll master evidence-based practices for preventing the behavioral challenges you don't want, and encouraging the ones you do! You'll create a safe positive environment inside and out that builds people up rather than tears them down!

Contact us to schedule a **FREE** neighborhood safety assessment
